We have exciting

News!

Students can now shop for Family & Friends from the safety of home!

FUN Services is launching a **Virtual Holiday Shop** this year. Our Virtual Shop will make the kids feel like they are IN-School Shopping. As they Virtually enter the Shop and Go Table to Table. This is not like any other online shopping experience. The kids will be able to shop from the comfort of their own home where they can choose the gifts they want to purchase as well as pay for the gifts right on the virtual site. This eliminates the crowded holiday room or media center you customarily have used and also makes it to where you Do Not need volunteers if you choose to have us pack the orders by student.

***We are offering 3 options* (your choice)**

- 1** The kids shop from our Virtual Gift Shop, place their order and the merchandise along with gift bags will get delivered directly to the child's home address. Volunteers must **ADVERTISE & SPREAD THE WORD** about your Gift Shop! Share the link Daily, use Mass Emails and All Call Systems to inform parents. Email our E-Parent letter to all parents and promote your gift shop via Social Media and other platforms. With this option you get **10% profit** for the sale.
- 2** We pack the orders from the virtual site for your school by students class and all you have to do is distribute the orders to the teachers. The teachers can then send the kids home with their orders at the end of the school day. With this option you get **15% profit** for the sale and have very minimal effort on your part. It's a win win for everyone because the kids still get the joy of shopping for family, your School Profits and your part is much easier than in the past.
- 3** We pack one bulk order and bring it to the school where you and a couple of volunteers would pack each order for each student. This is a bit more work on your part but you get **25% profit** for this option.

We tried to develop this program with COVID-19 in mind to minimize contact and eliminate the need for kids to shop at school. The great thing is that for schools that offer in class and distance learning options, all kids can still enjoy this wonderful program and that is what it is all about...*the kids and the gift of giving!!!*

Of course it is our hope that things return back to "normal" and the schools can run the "traditional gift shop program" but if not this will be an alternative or the new "normal". The kids have been through enough and we just want to make sure they are able to participate in the gift shop program which they have come to love so much!

It is our goal in making sure everyone is Safe, Healthy and Happy!
